### Alternative Education Centre

An alternative classroom that supports adult learners as well as underage learners needing alternatives to the traditional high school setting.

Courses include:

- Senior 1-4 core academic courses
- computers
- keyboarding
- accounting
- family studies

We also have continuous intake. Learning is self-directed. With the support of teachers and educational assistants, learners establish goals for their progress in courses. Choice is provided through activities, projects, and assessments. Base line computer training is available and is also an expectation for students at the Centre.
